MEMBER GUIDE · OWNERS & TENANTS

Gatepass

Approve visitors, invite guests and hear from the society office — all from your phone.

Get started in a minute

1. Open the **Gatepass** link shared by the society office.
2. Enter the **mobile number registered with the society**.
3. Type the **4-digit code** you receive by SMS. That's it.

No app store download needed. You stay signed in until you choose to sign out.

What's on your screen

Gatepass opens on **Requests**. If you own or rent more than one flat, tap the unit cards at the top (e.g. **B-402** **C-110**) to switch between them.

1 Signing in

- 1 Open the Gatepass link from the society office on your phone.
- 2 Enter your 10-digit mobile number and tap **Send code** .
- 3 Enter the 4-digit code from the SMS. Gatepass signs you in.

Add it to your home screen so it opens like an app.

Android (Chrome): : menu → **Add to Home screen**. iPhone (Safari): Share → **Add to Home Screen**.

You stay signed in. To sign out, tap  → **Sign out** (tap **Cancel** if you opened it by mistake).

Number not recognised? Ask the society office to add you. Only numbers in the society directory can sign in.

A mobile app screen with a light purple header. Below the header is the Essbel logo and 'ESSBEL CHS'. The title is 'Sign in to Gatepass' with a subtitle 'Use the mobile number registered with your society.' Below this is a 'Mobile number' label and a text input field containing '+91 9811100001'. At the bottom is a purple button with 'Send code' and a right arrow.

Enter your number

A mobile app screen with a light purple header. Below the header is the Essbel logo and 'ESSBEL CHS'. The title is 'Enter the code' with a subtitle 'We sent a 4-digit code to +91 98111 00001.' Below this are four white input boxes, the first two containing '2' and '0', the third containing a hyphen. Below the boxes is a purple button with a checkmark icon and 'Verify and sign in'. At the bottom are two links: 'Change number' and 'Resend in 20s'.

Type the SMS code

2 When a visitor is at the gate

When security logs a walk-in for your flat, the visitor appears under **Waiting at the gate** with their name, purpose, phone number and a photo if security took one. If Gatepass is open, a pop-up tells you straight away.

- 1 Tap **Approve** to let them in, or **Deny** if you aren't expecting them.
- 2 The visitor gets an SMS with your answer, and the guard sees it instantly.
- 3 Below, **Today at your flat** lists everyone who came today. Tap **Extend** to let a regular visitor (maid, driver, relative) come back without asking again.

Only one person needs to respond. If someone else at your flat already approved, you'll see it update.

3 Need security? Call or alert

- 1 Tap **Alert** on the Requests screen (or  at the top).
- 2 **Call** the main gate (24x7) or the security supervisor directly, *or*
- 3 Pick an alert type — Medical emergency, Suspicious person, Need help at home, Fire or smoke, Lift stuck, Other — add a short note and tap **Send alert**.

The guard on duty sees your name, flat and phone number immediately. You'll get updates when security is **responding** and when it's **resolved**.

In a life-threatening emergency, call 112 first, then alert the gate so they can guide help to your flat.

4 Invite a guest in advance

Invite tab

Expecting someone? Pre-approve them so they walk straight in with a code.

- 1 Enter the guest's **name** and **mobile**, and pick a purpose.
- 2 Choose **Today**, **Tomorrow** or **Pick date** (up to 3 days ahead).
- 3 *Optional*: choose a **time slot** — Morning, Afternoon, Evening or your own times. The gate only accepts the pass during that window.
- 4 Tap **Generate code and QR**. Your guest gets a 6-digit code and a QR pass by SMS; you can also **Share** it on WhatsApp.

At the gate, the guest shows the QR or tells the guard the code.

Revoke

Pass ready and sent by SMS

Managing passes you've issued

- **Extend** — keep the same code working for more days (useful for house help or a visiting family member).
- **Revoke** — plans changed? The code stops working at the gate immediately, and the guest is told by SMS. You'll be asked to confirm first.
- Tags show each pass's state: **Active**, **Scheduled**, **Used**, **Expired** or **Revoked**.

5 Notices from the society office

Announcements such as water shutdowns, lift maintenance, meetings and drills appear on your notice board, with a pop-up if Gatepass is open. Some include a photo or PDF you can open.

- **Urgent** notices are outlined in red and pinned on your home screen. Please tap **I've read this** so the office knows you've seen it.
- **Important** notices stay pinned until you open them.
- Tap  at the top any time to see all current notices.

Urgent notices may also come by SMS, so you're informed even when the app isn't open.

An urgent notice waiting for acknowledgement

6 Your units, tenants and profile

If you're an owner with a tenant, you decide who gets visitor requests:

- **Send visitor requests to tenant** — your tenant approves their own visitors.
- **Also notify me** — you get the requests too.
- The line *"Requests go to ..."* always shows who will be asked.

Adding or removing a tenant: tap **Request admin to add tenant** (or **Request removal**). The society office verifies and approves; you'll be notified. Your tenant then signs in with their own number.

If you're a tenant, the owner decides whether requests come to you.

My profile: tap **Edit** to change your name or mobile. A new number is confirmed with a code sent to that number, and it updates every flat you hold.

Units tab

A rented flat's settings

7 Your visitor history

Activity tab

See everything that happened at your flat: arrivals, exits, approvals, and passes issued, extended or revoked, grouped by day. Choose **Today**, **7 days**, **30 days** or a **Custom** range. You only ever see your own flats.

GOOD TO KNOW

Questions members ask

I'm not getting visitor requests.

Open **Units** and check "Requests go to". If your flat is rented, the owner may have sent requests to the tenant. Keep Gatepass open (or add it to your home screen) so pop-ups can reach you.

I changed my phone number.

Update it in **Units** → **My profile** → **Edit**. You'll confirm the new number with a code.

Can I invite someone for a specific time?

Yes — choose a time slot. The gate won't accept the pass outside that window.

Who can see my visitors?

Only the residents of your flat, security at the gate, and the society office. Visitor photos are never shared outside the society.

My guest lost the code.

Open **Invite** → **Passes issued** and use **Share** to send it again, or tell the guard the code yourself.

A guest is coming every day this week.

Create one pass and tap **Extend** to the last day. The same code works for repeat entries.

I invited someone by mistake.

Tap **Revoke** on the pass. It stops working immediately and the guest is informed.

Can I use it on a computer?

Yes. Open the same link in any browser and sign in with your mobile number.

Need help with Gatepass?

Contact the Essbel CHS society office, or the main gate on +91 98000 12345 (24×7).
